

# TRANSPARENCY IN HEALTH CARE PRICES

## ACT 1.1.18

The health care price for any given health care service is an estimate and the actual charges for the health care service are dependent on the circumstances at the time the service is rendered.

If you are covered by health insurance, you are strongly encouraged to consult with your health insurer to determine accurate information about your financial responsibility for a particular health care service provider by a health care provider. The prices listed below are not the negotiated rate for most insurance companies. If you are not covered by health insurance, you are strongly encouraged to contact our billing office at 303-429-6609 to inquire about discounts offered to uninsured patients and/or to make payment arrangements prior to receiving service from one of our providers.
